DATE Friday 31st August  
TIME 10am–1pm  
PLACE University of Technology Sydney

REGISTRATION AND MORE INFORMATION [Click here](#) or visit <https://tinyurl.com/yangdekb>

#### About Emeritus Professor John Gilbert

Dr. John Gilbert has been a seminal leader in the education of health professionals in British Columbia, Canada and internationally. In the early part of his career he pioneered linguistics and psychology as the basis of practice for speech-language pathologists and audiologists. In the latter part of his career it was his vision and leadership that led to the concept of interprofessional education being developed as a central tenet of team-based collaborative patient-

centred practice and care. These concepts are now part of university, college, and institute health sciences training in many places across Canada.

*John's visit has been kindly funded by the Faculty of Health,  
University of Technology Sydney.*
